# Sofie Nielsen

Computer Scientist

## Personal Info

21355029

sofiekirknielsen@outlook.dk

Kaserneboulevarden 9, 3. th,
Aarhus C, 8000, Denmark

Nationality
Danish

Driving License
Yes

Date of birth
20-09-2000

## Skills

- HTLM, CSS, JavaScript
- React.JS
- TypeScript
- Java
- C#
- Python
- Figma
- JSON
- Web Design
- User-Centered Design
- Prototyping Tools
- Communication & Presentation
- Data Cleaning
- System Design
- Software Development

During my **Master's in Computer Science**, I focused on translating user needs into concrete solutions through research, prototyping, and testing. With a specialisation in **Human-Computer Interaction and Ubiquitous Computing**, I gained experience analysing requirements and designing user-centred systems, with a focus on accessibility. Since finishing my studies, I completed an internship in **QA and Customer Success**, where I worked with testing, documentation, and quality assurance, gaining insight into how digital products are validated, supported, and maintained in practice.
I am proficient in **Figma, JavaScript, HTML/CSS, Java, and Python**, and have experience developing interactive user interfaces and data visualisations with a focus on functionality, aesthetics, and accessibility. In my spare time, I work on a **TypeScript** project using the ChatGPT API for image generation, while continuing to build my **React** skills through smaller side projects. I have also recently completed an online course in **C#** to strengthen my object-oriented programming foundation. I thrive in cross-disciplinary teams and am motivated by roles where I can combine **technical implementation with user-centred thinking** to create meaningful digital solutions.

## Relevant Work Experience

**QA & Customer Success, Redia A/S (Internship), Aarhus N**
January 2026 - February 2026

Worked with **testing, documentation, and quality assurance** to ensure stable and compliant product releases. Supported **ongoing compliance** and **audit processes** and prepared documentation and data for external IT audits, contributing to the organisation's ISAE 3000 compliance.

**Technologies & Tools**

- Jira & Confluence: Issue tracking & test case documentation.
- ComplyCloud: Document & manage compliance processes.
- HubSpot: Tracking customer interactions and support cases.

**Teaching Assistant, Aarhus University (Part-Time), Aarhus**
January 2024 - March 2025

**Receptionist/Café Employee/Retail Assistant, Kongernes Jelling (Part-Time), Jelling**
August 2019 - April 2020

## Education

**MSc in Computer Science, Aarhus University**
August 2023 - June 2025

**BSc in Computer Science, Aarhus University**
August 2020 - June 2023

**High School (STX), Grenaa Gymnasium**
August 2016 - June 2019

## Languages

- Danish
- English
- Spanish

## Volunteering

**Board Member - PR, TÅGEKAMMERET**
September 2023 - September 2024

**Tutor (Math/Physics), Math/Physics Tutor Association**
March 2021 - March 2024

**Board Mamber - PR, Fredagscaféen (Computer Science Friday Bar)**
November 2022 - June 2023

## Notable Academic Work

**Exploring the Gap: Exploring the Space Between Digital and Analogue Learning Environments for Neurodivergent Students**
January 2025 - June 2025

Investigated how neurodivergent students navigate **hybrid learning environments** using digital, analog, and augmented paper technologies through a **qualitative mixed-methods approach**, grounded in Grounded Theory and Cognitive Load Theory.

**Tools & Methods:**

- Qualitative data collection and analysis (diaries, interviews)
- Open/axial/selective coding (Grounded Theory)
- Theoretical framing using Cognitive Load Theory and neurodiversity research
- Analysis and design of **artifact ecologies** and **hybrid learning technologies**

**Information Visualization – "Steamy Vampires and a Dirty Dataset"**
July 2024 - August 2024

Developed an interactive visualisation of 250,000+ Goodreads fantasy books to identify subgenres and support book discovery through **similarity-based interaction**.

**Technologies Used:**

- D3.js for interactive data visualisation
- JavaScript, HTML, CSS for web development
- Python + NetworkX and Vega-Altair for early prototyping
- Git & GitHub for version control and collaboration
- JSON parsing and data cleaning

## Hobbies

In my free time, I enjoy **bouldering**, where the combination of **physical activity** and **problem-solving** motivates me. Finding the right path up the wall involves analysis, experimentation, and adjustment – something I also bring into my daily work approach. I also love spending time in nature, especially **hiking in mountainous areas**, and have independently planned several trips to **Zakopane**, Poland. These experiences have sharpened my coordination and practical problem-solving skills. In addition, I find focus and creative inspiration in reading, drawing, and **watercolor painting**, which contribute to my **visual thinking** and **aesthetic awareness** in design work.
