Sofie Kirk Nielsen

Computer Scientist

Summary

I am a recent **Master's graduate in Computer Science** from Aarhus University, specialising in **Human-Computer Interaction**. I bring strong analytical and technical skills and a proven ability to effectively translate user needs into practical digital solutions. My strengths include requirement analysis, system design, and structured **problem solving**. I am experienced in clear communication and effective **cross-disciplinary collaboration.** Since graduating, I have gained **hands-on professional experience** through an internship in **QA and Customer Success**, where I worked with testing, documentation, and quality assurance.
I am technically competent working in **JavaScript, TypeScript, HTML/CSS, Java, Python, and Figma**. I have also developed interactive user interfaces and data visualisations. I continue to build my skills through personal projects, including a **TypeScript** application using the ChatGPT API and application development in **React, NextJS and C#** using their introductory courses.

Relevant Work Experience

QA & Customer Success, Redia A/S (Internship), Aarhus N
January 2026 - February 2026

Ensured stable and compliant product releases using **testing, documentation,** and **quality assurance**. Supported **ongoing compliance** and **audit processes** and prepared documentation and data for external IT audits.

Technologies & Tools

- Jira & Confluence: issue tracking & test case documentation.
- ComplyCloud: documentation & compliance processes.

Teaching Assistant, Aarhus University (Part-Time), Aarhus
January 2024 - March 2025

Supervised students through dialogue and discussions with their written assignments and critical thinking.

Receptionist, Kongernes Jelling Museum (Part-Time), Jelling
August 2019 - April 2020

Conducted guided tours and provided excellent customer service to both Danish and international guests.

Education

MSc in Computer Science, Aarhus University
August 2023 - June 2025

BSc in Computer Science, Aarhus University
August 2020 - June 2023

High School (STX), Grenaa Gymnasium
August 2016 - June 2019

Personal Info

Kaserneboulevarden 9, 3. th,
Aarhus C, 8000, Denmark

21355029

sofiekirknielsen@outlook.dk

Nationality
Danish

Driving License
Yes

Date of birth
20-09-2000

Portfolio

Key Skills

Frontend: HTML, CSS, JavaScript

Frontend: Web Design

Design: Prototyping Tools, Figma

Design: User-Centered Design

Design: Communication & Presentation

Backend: Java, C#, Python, JSON

Backend: Git, GitHub, GitLab

Frontend: TypeScript, React.JS, Next.JS

Backend: System Design, Data Cleaning

Languages

Danish

English

Spanish

Volunteering

Board Member - PR, TÅGEKAMMERET
September 2023 - September 2024

Tutor (Math/Physics), Math/Physics Tutor Association
March 2021 - March 2024

Board Mamber - PR, Fredagscaféen (Computer Science Friday Bar)
November 2022 - June 2023

Notable Academic Work

Exploring the Gap: Exploring the Space Between Digital and Analogue Learning Environments for Neurodivergent Students
January 2025 - June 2025

Investigated neurodivergent students' use of hybrid learning tools through qualitative research grounded in Grounded Theory and Cognitive Load Theory

Tools & Methods:

- Qualitative data collection and analysis (diaries, interviews)
- Open/axial/selective coding (Grounded Theory)
- Analysis and design of **artifact ecologies** and **hybrid learning technologies**

Information Visualization – "Steamy Vampires and a Dirty Dataset"
July 2024 - August 2024

Developed an interactive visualisation of 250,000+ Goodreads fantasy books to identify subgenres and support book discovery through **similarity-based interaction**.

Technologies Used:

- D3.js for interactive data visualisation
- JavaScript, HTML, CSS for web development
- Python + NetworkX and Vega-Altair for early prototyping
- Git & GitHub for version control and collaboration
- JSON parsing and data cleaning

Hobbies

I enjoy **bouldering**, where the combination of **physical activity** and **problem-solving** motivates me. Finding the right path up the wall involves analysis, experimentation, and adjustment. I also love spending time in nature, especially **hiking in mountainous areas**, and have independently planned several trips to **Zakopane**, Poland. These experiences have sharpened my coordination and practical problem-solving skills. In addition, I find focus and creative inspiration in reading, drawing, and **watercolor painting**, which contribute to my **visual thinking** and **aesthetic awareness** in design work.
